Subject: MILTON KEYNES - Juniper Installation - Many thanks

Hi All

BT have relayed there gratitude today on the IWG call to all that were involved in this installation.

This was at short notice with many issues being experienced that were eventually solved by you all as a team. They were impressed by our ingenuity and our willingness to assist and succeed.

I would like to pass on my own thanks to you all also as this was challenging to say the very least. Please pass on my gratitude to persons within your teams that are not copied in on this mail.

Many thanks

Julian

WELL DONE TO ALL INVOLVED!
