**Subject:** Man Transit C&W MCRN12 box

**Hi Men...**

**I have seen the 1st install by ICEE at Man Transit this morning...**

**It's the new TM3000 chassis that faces C&W MCRN12.**

**The standard of the workmanship appears exemplary... The cards fitted as per... The fibres dressed in correctly and most importantly... labelled at both ends...**

**I didn't have time to do a full audit of the whole job as its quite a big one...But if this is the standard then I see VM should have no problems regarding aesthetics from our customer...**

**Please pass on these comments to John and the installation lads at ICEE...**

**Chris**
